Since the 1959 yearbook staff was sporty,  
and somewhat spotty, difficulties arose  
in getting them all together for a pic-  
ture, but it is thought that those respon-  
sible for the book should be made known  
to the school. We present them here all  
wrapped up in the Alpha Lambda.

To: Miss Betty Breining

From: Yearbook Staff

You knew your ABC's, minded your P's and Q's - and left us; so, regretfully, we dedicate this book to you,

Sincerely,

*... And Her Friends*

# ADMINISTRATION

*The quality of mercy is not strained;  
It droppeth, as the gentle rain from heaven  
Upon the place beneath; it is twice bless'd —  
It blesseth him that gives, and him that takes.*

SHAKESPEARE

The opportunities of the Space Age are unlimited for those who are prepared to meet its challenges. Realizing its responsibility in these demanding days, Lincoln School has striven to provide the best educational opportunities possible for each of its students.

The faculty and administration extend their sincerest wishes for the success and happiness of all Lincoln graduates as they face the challenging experiences of the Space Age.

## SOME JOBS ARE WORTH CHEERING

Take the Telephone Company, for example. Anyone who works for Michigan Bell will tell you it's everything a girl could want in a job.

\* First, you don't need any experience. You learn your job on the job, and earn a good salary while learning. Raises are regular and frequent; you get annual vacations with pay, plus a host of other advantages.

Another nice thing about telephone work is that you associate with people your own age, just out of school, too. You work in clean, bright, pleasant surroundings. Whether you start as a telephone operator, a teller, or a clerk, you find opportunities for advancement.

We'd like to tell you more about these and other interesting telephone jobs. Visit us soon, won't you?

**NOW  
ENTERING  
THE ERA OF  
ALL-ELECTRIC  
LIVING**

Today's graduates are entering an exciting new era where they will live better electrically in every way . . . at home, at work, or at play.

For example, if you choose marriage, you can enjoy an all-electric home. Included will be electric heat, built-in electric range and refrigerator and a host of time-saving, economical electric appliances. They will be the ultimate in modern living comfort and convenience.

Or, if you go into business, efficient electrically operated machines will assist you in getting the job done swiftly and easily—again an illustration of the versatility and dependability of electricity.

Or, if you go on to college, perhaps you will become one of the scientists or technicians who help further mold the all-electric world of the future.

No matter which path you may choose, electricity will be there to lighten your load, brighten your way . . . help you live better . . . electrically.
